INTRODUCTION

We are pleased to have this opportunity to service exhibitors participating in GENERAL TARIFF FOR CAPE TOWN.

Our comprehensive range of services include Customs clearance, all logistic requirements from port of arrival to the exhibition booth, and re-export arrangements handled by our fully equipped and experienced team of executives, supervisors and workers.

This Shipping Manual will assist you in the preparation for the correct and timely dispatch of exhibits to South Africa.

Failure to comply with the deadlines and instructions will cause unnecessary delays in clearance, and may lead to additional expenses incurred.

GENERAL INFORMATION

The South African Authorities working in line with international conventions permit exhibits to be imported into South Africa on 'Temporary Import' basis. To enable us to clear the exhibits under bond on 'Temporary Import' basis, please adhere to all instructions in this Shipping Manual.

As the South African Authorities subscribe to the ATA Carnet System, you are advised to do so to expedite temporary import Customs clearance.

Certain commodities like foodstuff, medication, electrical goods and certain rubber products are restricted from importation or require special permits for import into South Africa. If you are not sure, please check with our staff prior to shipment to ensure we have the correct documentation as required by the South African Authorities.
DEADLINES

South African Customs will stop and examine any goods brought into South Africa as a temporary import. Should you have goods for temporary import and permanent import in the same shipment, South African Customs will first stop and examine the temporary goods. Once the temporary goods have cleared Customs formalities, ONLY THEN can the goods for permanent entry be submitted to Customs for clearance.

In light of the above, we suggest that you send temporary import goods separate from permanent import goods. This especially applies to cargo that’s required urgently.

Important Notes Regarding Documentation

1) It is suggested to send goods for temporary and permanent import separate and not mixed, as this will delay Customs clearance.
2) All documentation must be in the English Language.
3) A full description of each product / item must be given. Do not just indicate the model name or model number. Describe the item - such as "1:3 scale (cutaway) missile model" or "souvenirs - Lapel pins" or "wooden display plinth - floor standing", etc.
4) Please indicate what each item is made of. For example: display cabinet made of wood with glass doors, wooden chair with fabric upholstery, ladder made of aluminium etc.
5) Every individual item, including giveaway items and brochures, is to be given a value based on FOB value expressed in U.S. dollars. Do not indicate the phrase "No Commercial Value".
6) The following declaration must be indicated: "The invoiced goods are of .... (country) ..... origin and are intended for display purposes only at the exhibition site in Cape Town, South Africa"
7) For furniture and stand materials, information as to whether floor-standing or wall-mounted must be indicated, and material composition specified.
8) It is recommended to fax copies of the commercial invoices to our offices prior to shipment in order to check if there's any restrictions on the products or if there are any special import permits required.
9) If possible, please provide the Harmonized Customs Tariff for each product on the commercial invoice. If there is no Harmonized Customs Tariff indicated on the commercial invoice, one will be assigned by our entry clerk at his discretion and Customs duties and taxes must be paid accordingly. No queries/disputes regarding Customs Duty and VAT will be accepted if there was no Harmonized Customs Tariff codes indicated on the commercial invoice.
10) The Combined Commercial Invoice and Packing List must be received by us not later than the deadlines shown.
11) The number of packages, weight and volume should tally with the details on Bills of Lading, Air waybills, Invoices and Packing Lists.
12) If there is a serial number available for a product please indicate it on the commercial invoice. This will assist temporary Customs formalities.
13) Exhibitors are requested to declare products correctly on all documents. In case of discrepancies arising from customs examination, Customs may impose penalties as applicable which will be payable by the exhibitor / agent. We do not accept any responsibilities in case of incorrect declarations by the exhibitor.
14) It must be clearly stated on the commercial invoice if the goods are for temporary or permanent importation.

For all consolidated shipments having more than one commercial invoice, a HAWB/HBL must be issued for each commercial invoice.

TEMPORARY IMPORTATION

Temporary import is allowed either with an ATA Carnet or a Temporary Import Bond (TIB) lodged with S.A. Customs.

a. **ATA Carnet**

Exhibitors are strongly advised to ship their exhibition goods using the ATA Carnet System in order to shorten the processing time of documents for temporary importation.

Carnets should be used for goods NOT intended for sale or give-away.

The splitting of Carnets on re-export is not suggested. Should our company receive an instruction to split a Carnet, we can not be held liable if the Carnet is signed off incorrectly by Customs.

b. **Temporary Import Bond (TIB)**

Agility Fairs & Events Logistics (Pty) Ltd can facilitate a TIB subject to a TIB Fee (non-refundable) at 2% of CIF value or Customs appraised value, whichever is the greater. Validity of TIB is 2 months from date of entry. Extension can be arranged subject to Customs’ approval and additional TIB fee at 2% of filed value with Customs per month. Note that the number of packages, weight and volume of items imported on a temporary basis must be the same on export.

PACKING
Exhibitors are advised to provide strong packing cases for the transportation of the exhibits which can withstand unpacking and repacking operations. Empty cases will be stored within the exhibition site if space is available. Your cases will be marked and stored systematically under shelter during the exhibition period in order to facilitate quick and early retrieval for the repacking at the end of the exhibition.
